PROFESSIONAL SUMMARY

Final year Computer Science and Informatics student at the University of Johannesburg with a proven record of academic excellence, including Top Achiever awards and UJenius Top 1% recognition. Experienced in developing full-stack applications, leading project teams, and translating ideas into practical software solutions. Eager to begin a career in software engineering, contribute to meaningful products from day one, and continue growing within a high-performance engineering team.

EDUCATION

BSc in IT in Computer Science and Informatics University of Johannesburg	Expected Completion - 2026
--	-----------------------------------

- Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, Database Design, Web Application Development, Computer Networks, IT Management

Academic Achievements

- Top Achiever Award: 1st Year (2024) and 2nd Year (2025)
- UJenius Top 1% (2025)
- Golden Key International Honour Society: Top 15% (2023–2025)

EXPERIENCE & TRAINING

FNB App Academy FullStack Development Bootcamp	2024
--	-------------

- Completed an intensive full-stack bootcamp covering front-end engineering, RESTful API design, back-end data management, and software development best practices

PROJECTS

MzansiBuilds | JavaScript, HTML, CSS, Supabase

- Built and deployed a full-stack web application enabling developers to build publicly and collaborate in real-time
- Implemented secure user authentication and multi-tenant data persistence using Supabase Auth and PostgreSQL with Row Level Security (RLS), eliminating unauthorised cross-user data access
- Delivered end-to-end features including project creation and management, milestone tracking, a commenting system, collaboration requests, and live developer activity feeds

DailyDeli | C#, ASP.NET, WCF, SQL Server, JavaScript, HTML, CSS

- Developed a multi-tier e-commerce platform using ASP.NET, WCF Services, and SQL Server
- Led a team of four developers, coordinating delivery through task allocation and daily stand-ups
- Designed and normalised the SQL Server database schema supporting core business operations.
- Performed code reviews across backend and frontend components to improve quality, integration, and team knowledge sharing.

Personal Portfolio Website | React, TypeScript

- Developed a responsive portfolio website using React and TypeScript to showcase projects, technical skills, and academic achievements.

TECHNICAL SKILLS

Languages | Java, C#, JavaScript, TypeScript, SQL

Frameworks & Technologies | React, Spring Boot, ASP.NET, WCF Services, Supabase, HTML5, CSS3

Databases | SQL Server, PostgreSQL

Developer Tools | Git, Docker, Visual Studio Code, IntelliJ
